

digital radio technology 2.4 GHz stabo solar outdoorcam HD 110° IP 66 add-on camera for stabo multifon security V

Safety at day and at night! The stabo solar outdoorcam HD 110° add-on camera for your **stabo multifon security V** system provides razor-sharp images, thanks to a night vision range of 10-15 m and a viewing angle of 110°. Its compatibility with iOS and Android allows easy handling and monitoring everywhere. Thanks to push notifications, you are always informed about your home-situation. With a sturdy PVC housing, including lens protection, the camera is ideal for outdoor use. The camera is powered by a separate 3 W solar-panel with 3,7 V Li-Ion battery pack for a sustainable and reliable power supply. Mounting of the camera can be either on wall or ceiling.
